WASTE TREATMENT SERVICES

REQUEST FOR EXPRESSIONS OF INTEREST (REOI)

EXECUTION OF OPERATIONAL SERVICES FOR WASTE TREATMENT AT STAATSOLIE UPSTREAM ONSHORE FACILITIES

1. Introduction

Staatsolie Maatschappij Suriname N.V. ("Staatsolie") hereby invites qualified and experienced service providers to submit an Expression of Interest (EOI) for prequalification regarding the execution of **Waste Treatment Operations** at Staatsolie Upstream Onshore Facilities.

The selected contractor will be responsible for providing end-to-end waste treatment operational services including waste handling, treatment, recycling coordination, disposal activities, reporting and HSE compliance across Staatsolie's designated waste treatment facilities.

This EOI forms part of the prequalification process and is intended to establish a shortlist of qualified contractors who may be invited to participate in a subsequent competitive tender process. For more information about Staatsolie, please visit: www.staatsolie.com

2. Project Overview

Staatsolie intends to establish a Framework Agreement for a period of three years with a qualified contractor for the execution of Waste Treatment Operations at its Upstream Onshore Facilities.

The agreement is expected to cover operational services at:

- Landfarm Facilities
- Waste Management Facility (WMF)
- Dumpsites
- Other designated upstream operational locations

The contractor shall provide qualified personnel, management systems, reporting capabilities, HSE compliance and operational support required to maintain safe, efficient and environmentally compliant waste treatment operations.

Interested suppliers are requested to complete only the relevant questions in the provided webform: [Prequalification Questionnaire for Waste Treatment – Collaboration](#). This questionnaire will determine the pre-qualification results using key factors rating your organization's capacity to meet critical requirements.

Please note that your Expression of Interest must be submitted no later than **July 30th, 2026, 13:00** hrs. Surinamese time.

To remain eligible for participation in the tender procedure, we encourage you to take part in the EOI.

3. Scope of Services

Framework Agreement for Waste Treatment Operations – Upstream Onshore Facilities

Project Description	Scope
Framework Agreement for the Supply of Commodity and Specialty Chemicals	The Contractor shall: • Execute waste segregation and classification activities; • Prepare and package waste for transportation; • Handle domestic, industrial and contaminated waste streams; • Operate and maintain waste treatment processes including: ○ Landfarm and bioremediation systems; ○ Incineration systems; ○ Centrifuge and oil recovery systems; ○ Water treatment systems; • Coordinate recycling activities with approved third-party recyclers; • Ensure environmentally compliant disposal methods; • Maintain accurate operational records and waste tracking data; • Register required waste information in Staatsolie's PPP application; • Submit operational, inspection and KPI reports; • Ensure compliance with Staatsolie HSE procedures; • Ensure compliance with ISO 9001, ISO 14001 and ISO 45001 requirements; • Provide qualified and competent personnel; • Ensure operational continuity and minimize downtime; • Participate in performance evaluations and audits; • Maximize local content through employment, training, subcontracting and knowledge transfer initiatives.

4. Eligibility and Supplier Associations

Contractors may be:

- Local companies registered in Suriname; or
- International companies.

Where contractors form Joint Ventures, partnerships or consortiums, the nature of the association shall be clearly described.

5. Minimum Prequalification Requirements

Expressions of Interest submissions will be evaluated in accordance with the weighted criteria set out below.

#	Criterion
1	Legal eligibility, company registration and financial standing
2	Relevant experience in waste treatment, environmental services or industrial operations
3	Technical capability and operational resources
4	Availability of qualified personnel and management structure
5	HSE performance and certifications
6	ISO 9001, ISO 14001 and ISO 45001 certification
7	Reporting systems and data management capability
8	Local content and knowledge transfer strategy
9	ESG approach and ethical business practices
10	Past performance on comparable contracts
Minimum Pass Mark: 70%
